NPG Quick-Connect™ cable gland
Fast and simple

Speed and ease of installation make the NPG Quick-Connect cable gland the ideal choice for panel builders and volume installers, as the ease of installation comes with no reduction in performance.

Features and benefits
- Ideal for panel builders, OEMs and volume installers
- Single piece design that requires no additional parts (no locknut required)
- Low internal profile
- Suitable for use with unarmoured cable, portable cord and tray cable
- Halogen-free nylon (PA6) available in black, grey and light grey
- IP66 - IP68 (5 bar 30 mins) rating
- Corrosion resistant
- No locknut required
- Another innovative solution for cable protection systems
Quick-install cable gland

Thanks to its built-in nylon locking mechanism, the NPG Quick-Connect cable gland offers an easy, three-step installation: Simply snap the gland into a properly sized knockout until it clicks, insert the cable and tighten. No locknuts or separate parts are required.

See our installation video at tnb.ca/npg

Removal tool

- One removal tool included with each inner packaging
- Also sold separately (light grey plastic - RAL 7035)
- Push from inside the enclosure using this tool to easily remove the cable gland.

Also available in Metric sizes from M16 to M32.

Replace the “x” of the catalogue number by one of the following:

B = black (RAL 9005), G = grey (RAL 7001), LG = light grey (RAL 7035)

Note: Product must be installed in accordance with applicable national and local electrical codes.
