

Configuration methods

Quick reference

Complicated cable routing layouts become simpler with ExpressTray. Once familiar with the basic configuration and support methods, the possibilities are unlimited.

Use the following pages as a guide to ExpressTray basics and as an inspiration for future projects.

A	Quiklok.....	C39	I	Horizontal tee or cross with a radius	C43
B	Connection of straight sections quick splice	C39	J	Horizontal tee or cross without a radius	C44
C	Reinforcement of straight section connections	C39	K	Reduction/expansion	C44
D	Connection of straight sections universal splice	C40	L	Cable drop-out.....	C45
E	Horizontal bend without a radius (90°)	C40	M	Large cable drop-out	C45
F	Horizontal bend with a radius.....	C41	N	Vertical drop	C46
G	Vertical bend without a radius (90°)	C42	O	Covers and bottoms	C46
H	Vertical bend with a radius	C42
