

ENT stub-downs

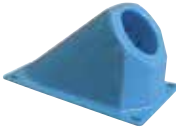

Vertical stub-down

Carlton vertical stub-downs are designed to provide a quick, easy connection to a wood deck or transition from slab-to-slab using Carlton's "quick connect" snap-in design... simply snap the ENT in place. The integral snaps provide a secure mount – preventing the ENT from pulling out while maintaining the ability for easy removal of the fitting once the deck is removed. All in a concrete-tight application. The underside of this fitting provides ample room to attach a Carlton coupling to the ENT to continue the run. Carlton vertical stub-downs are manufactured out of a highly engineered thermoplastic material to provide extra strength and durability and are available in sizes ½ in., ¾ in. and 1 in.

| | Cat. no. | Size (in.) | Std. ctn. qty. | Std. ctn. wt. (lb) |
|------------------------------------------------------------------------------------|----------|------------|----------------|--------------------|
|  | A210D | ½ | 50 | 3.8 |
| | A210E | ¾ | 50 | 3.7 |
| | A210F | 1 | 50 | 4.8 |

45° Stub-down

Carlton 45° stub-downs are designed to allow a smooth transition from cross deck ENT runs to vertical applications. The integral snaps provide a secure mount – preventing the ENT from slipping or pulling out – but also allow the stub to easily be removed. The underside of this fitting provides ample room to attach a Carlton coupling to the ENT to continue the run. Carlton 45° stub-downs are manufactured out of a highly engineered thermoplastic material to provide extra strength and durability. They're concrete-tight and available in sizes ½ in., ¾ in. and 1 in.

| | Cat. no. | Size (in.) | Std. ctn. qty. | Std. ctn. wt. (lb) |
|-------------------------------------------------------------------------------------|----------|------------|----------------|--------------------|
|  | A220D | ½ | 25 | 1.8 |
| | A220E | ¾ | 25 | 2.0 |
| | A220F | 1 | 25 | 2.6 |
| | A220G | 1¼ | 25 | 2.8 |
| | A220H | 1½ | 25 | 3.3 |
| | A220J | 2 | 25 | 4.1 |

Vertical stub-down transition adapter

Carlton nonmetallic exclusive... Carlton vertical stub-down transition adapters like our vertical stub-downs, provide a means to transition from ENT to another wire management product where code requires other wire management means. The integral snaps provide a secure mount – preventing the ENT from slipping or pulling out, while the deck mount flange has a threaded port allowing connection to other conduit system using terminal adapter. Carlton vertical stub-down transition adapters are manufactured out of polycarbonate material to provide extra strength and durability. They're concrete-tight and available in sizes ½ in., ¾ in. and 1 in.

| | Cat. no. | Size (in.) | Std. ctn. qty. | Std. ctn. wt. (lb) |
|-------------------------------------------------------------------------------------|----------|------------|----------------|--------------------|
|  | A200D | ½ | 50 | 3.8 |
| | A200E | ¾ | 50 | 3.7 |
| | A200F | 1 | 50 | 4.8 |

90° Stub-down transition adapter

Carlton nonmetallic exclusive... Carlton 90° stub-downs are designed to allow a smooth transition from cross deck ENT runs to vertical applications where code requires other wire management means. The integral snaps provide a secure mount – preventing the ENT from slipping or pulling out, while the deck mount flange has a threaded port allowing connection to any conduit system using a terminal adapter. Carlton 90° stub-downs are manufactured out of polycarbonate material to provide extra strength and durability. They're concrete-tight and available in sizes ½ in., ¾ in. and 1 in.
